

# Creating Value *from* Asset Reliability

## **AWARENESS DAY CONFERENCE 2010**

**Tauranga, New Zealand Tuesday 11th May 2010**

**(Conference days 12th & 13th May 2010)**

VANZ presents, with support from the Manukau Institute of Technology, a one day introductory course on Condition Based Monitoring techniques and how they fit into the current "Global Best Practices" for Creating Value from Asset Reliability. Brought to you by National and International training presenters.

**Subjects include:** Vibration Analysis - Balancing - Thermography - Alignment - Ultra-Sound - Lubrication/Analysis

It will cover the latest practices from around the world and explain why, where and what technology can be utilised within your industry.

*Plus you will see first hand*

**An overview of reliability • Top industry presenters • Based at end-user level**

**Real world examples • Comprehensive reference notes • Networking opportunities**
